LIBRARIAN'S REPORT OF THE PILLSBURY FREE LIBRARY

For the year ending December 31, 1955

To the Trustees of Pillsbury Free Library:

It was with regret that the resignation of Mrs. George H. Harmon, who had served as Librarian for five years, was accepted by the Trustees at the June meeting. Mrs. Benjamin F. Sawyer was elected to be acting Librarian, until Mrs. Irving George was elected at the September board meeting to serve as Librarian, and on October 1, 1955 she began her Librarianship, and we know she will serve the Town well.

Gifts of historical interest are always acceptable for our historical room. The articles which pertain to the history of Warner are of special interest to everyone, and especially to our school children when they visit during National Book Week in November, as they did this year, as usual.

The total number of books loaned this year was 7,745. Two hundred seventeen new books were added, and these are catalogued so that anyone may read what the accessions have been.

For donating books, magazines, pamphlets and maps we thank the following, -- Miss Marion Derry, Mrs. Chester Gooch, Mrs. H. J. Bean, Mrs. Angie Rogers, Mrs. Eugenia Cofren, Mrs. George Brown, Mrs. Mary Flanders, Mrs. John Schroetter, Mr. and Mrs. Henry Wachsmuth, Mr. P. Mason Tilden, Mr. William Dowling, Mr. Walter Miner, Mr. J. P. H. Chandler, Jr., Mr. Edgar Keen, Mr. Robert West, Mr. David McIlhiney and Rev. Ivar Pearson.

We acknowledge our appreciation and thanks to Mr. Charles Kartz of Ridgewood, N. J. for taking out of a group picture, a picture of our first Librarian, Miss Mary Bartlett Harris, and enlarging it, so that it could be framed and hung in the reading room.

A tea was served in the historical room in August by the Warner members of the Institute of World Affairs, during the week that said Institute convened here. A very interesting book exhibit was on display also.

The living Christmas tree was lighted again this year by the members of the Civic Improvement Committee of the Warner Woman's Club adding cheer to the library during the holiday season.

The Trustees have met in the library for all the regular meetings, with Mr. Walter P. Miner presiding.

Respectfully submitted,

MRS. IRVING GEORGE, Librarian
MRS. BENJAMIN F. SAWYER,
Assistant Librarian

FOREST FIRE WARDEN'S REPORT

Be A Good Citizen - Cooperate

Smoking and debris burning caused more than 50 percent of the forest fires occurring in the state of New Hampshire in 1955 - 235 fires out of a total of 463 originated from these two sources. Lighted smoking material and matches thrown from moving vehicles along the highway or dropped by fishermen, hunters, hikers, berry and flower pickers accounted for 26 percent; debris burning in the wrong place or at the wrong time by those who failed to heed all pleas for safety or refused to recognize the logical, sensible rules and regulations set up under legislative authority governing the use of fire in or near woodlands accounted for more than 24 percent. This is inexcusable.

Everything possible is being done officially to remedy the situation. Since 1909 there has been a statute on our law books which requires everyone to secure written permission from the local forest fire warden before starting a fire in or near woodlands or where fire can be communicated to woodlands, unless the ground is covered with snow. A never ending program of educational work is being carried on by your local warden and state officials to inform the general public both of the value and necessity of securing the required permit for such burning. Much progress has been made, but there are still many who fail or refuse to cooperate. The value of our permit system was definitely proven in this district during the 1955 calendar year. Local wardens issued 3,864 permits for debris burning fires. That's a lot of permits. The records show only 2 permit fires got out of control. This proves several things - while wardens were liberal in the issuance of fire permits, accommodating every applicant so far as possible, they were cautious, following closely directives outlining overall policy governing the issuance of burning permits and thoroughly instructing permit users. The latter, too, fully appreciating their responsibility in using their permits, governed themselves accordingly. Result? Much burning done legally and safe.

But what of the smokers? Despite all the efforts of those officially charged with the responsibility of preventing fires, too many were careless or thoughtless in disposing of smoking material and matches. Why? It is difficult to say. Autos are now equipped with ash trays. Why not use them. The crushing out of a cigar, cigarette and the complete extinguishment of matches before being discarded is an easy chore.

If the costly habits of the careless and indifferent smoker and debris burner could be overcome, more than half of our annual

forest fires would be eliminated. Will YOU do YOUR share to bring this about?

REMEMBER

1. Get a written permit from your local warden before starting your debris burning or camp fire. The law requires it.
2. Make certain they are dead out before leaving them.
3. Become a safe smoker by extinguishing smoking material and matches before discarding them.

There has been only one change in the teaching staff this year. Miss Catherine Shaw was employed as second grade teacher at the grade school. We have been very fortunate in the past two years in having a very small teacher turnover. The supply of teachers continues to be much less than the demand for them, and there are no signs that this situation will change in the next few years.

Simonds Free High School has done its share in the past in sending its graduates on to teacher training institutions. If other high schools in the state had done as well there would be more teachers available. This year we hope to have one or two seniors observe in the grade school in hopes that their interest in teaching will continue. The more young people are encouraged to enter the teaching profession, the better off we will be. We adults should encourage young people to enter the teaching profession. The need is very urgent. At the present time, I have had one position open for a month with no prospects in sight at the moment.

Our School population has not changed very much in the past few years, and our census figures indicate little change over the next five or six years. There may be some increase in high school population as the bulge we have had in the grade schools reaches the high school. The population in the lower grades in the sending towns indicates a slight increase in tuition pupils for four or five years and then a slight decrease in tuition pupils. Few of the Sutton children now attend Simonds and only about half of the Webster pupils now attend Simonds. Therefore, we must conclude that there won't be any radical change in the population of the Warner Schools.

Some improvements have been made in the property. New fluorescent lights have been installed in the Junior High room so that for the same cost we are getting about twice as much lighting as we had previously. More lighting should be added to the other rooms. A new heating system has been installed in the Principal's house and this will be paid for over a period of time by increased rent. Certainly the property is more valuable with an adequate heating system.

I have enjoyed my work in Warner and wish to thank the parents, School Board and teachers for their cooperation.
